PERIOD COVERED: July 1, 1990 to June 30, 1991

Need

Over the past several years, the Department has acquired public access to public waters. Boating facilities have been installed and developed. Newly-acquired sites were also developed to facilitate the boating public. Routine maintenance of older sites was conducted.

Objective

Easy and safe access to public water for boating and fishing purposes was the leading objective followed by development, maintenance, and renovation of existing sites.

Results and Benefits

As a result of increased efforts on repair and maintenance, the access sites are cleaner and safer for public use. The users have benefited from the additional facilities that were installed.

Approach

Twenty-five public access areas were maintained for boating purposes in Region 3.

Location

1. Renovation and Improvement

During the last project year, boat docks were purchased and stockpiled for installation during the next project period. Docks were installed at Steck Park. However, additional docks are needed and the ramp should be lengthened at such time when the water conditions are favorable.

Directional and site signs were installed by Department personnel at all access locations. The Department of Transportation installed "Sportsmen Access" signs on all federal and state highways.

<u>Site</u>	<u>County</u>	<u>Improvement</u>	<u>Estimated Cost</u>
Highway 95	Canyon	Site was not acquired	
Cottonwood	Owyhee	Rock jetty was not constructed	
Grandview	Owyhee	Site obtained and ramp installed by City of Grandview	
Salmon River Shorts Bar Island Bar	Idaho	Ramps not completed, portables to be installed as per agreement	
Paddock Valley Reservoir	Washington	Installation of toilets - not completed - 100 feet was added to ramp	2,000

2. Maintenance

Routine maintenance operations were conducted on all boating access areas. Activities included, but were not limited to, painting, signing, pumping toilets, vegetation control, refuse cleanup, and maintaining roads and parking areas.

Site	County	Improvements	Estimated Cost
Indian Creek Reservoir	Ada	Signing, road maintenance, refuse cleanup, pump and clean toilets, rodent control, vegetation control and fence maintenance	\$1,400
C. Ben Ross	Adams	Clean and paint toilets	\$ 200
Fort Boise WMA	Canyon	Clean and pump toilets and refuse cleanup	\$ 400

FEDERAL AID IN FISH RESTORATION

ANNUAL REPORT

TITLE: Motorboat Access, Region 4
PROJECT NO. F-77-B-7
PROJECT LEADER: Dale Turnipseed
ASSISTANT: Pat Cole
PROJECT PERIOD: July 1, 1990 - June 30, 1991

NEED: The Department has acquired by fee title or easement access to public waters. These areas were developed in the 1960's and have since deteriorated and are in need of renovations. Small wooden toilets are presently not meeting the needs of the boating public. These toilets are substandard for the handicapped. The roads to these sites do not meet the needs of today's vehicles and are in need of upgrading..

OBJECTIVE: To provide for operation, maintenance, renovation and safer access to public waters for boating and fishing recreation and for public use of sport fish.

RESULTS: Increased effort on maintenance, repair and renovation will result in cleaner, safer public access areas. Improved facilities will allow more people and boats access to the public waters for boating, fishing or other recreational activities.

APPROACH: Operate and maintain 15 public motorboat access areas in Region 4.

Activities: 1. Maintenance, Renovation and Operation

Repairs and upkeep include cleaning toilets, controlling weeds or other unwanted vegetation , removal of refuse, pump out toilet vaults, replacement of damaged facilities such as toilets, concrete boat ramp logs, signs, parking barriers, paint facilities, maintain access roads and other repairs deemed necessary. Monitor public use.

Job Title: Motorboat Access, Region 5 _
Project Number: F-77-B-6
Project Leader: Paul Wackenhut
Project Period: July 1, 1990 - June 30, 1991

Introduction

The Department has operated and maintained 40 boating access facilities during the past year. Department members have met with the Region V Outdoor Recreational Task Force Committee on various occasions and conferred with committee members to establish policies for development of targeted areas and for maintenance plans. Three summer (JTPA) employees assisted with weed spraying, clean-up, fence building, and related tasks on some of the areas, mainly in Bingham and Bannock Counties. Signs were ordered and installed to bring the area in to compliance with Department guidelines.

A. Improvements

Bannock County

1. Wiregrass Reservoir - Provided portable toilet facilities.
2. Six docks were provided to the county but were used at Sportsmens (2), Springfield (3), and Jensions (1).

Bingham County

1. Provided portable toilet facilities at Poison Creek, Springfield Reservoir and Ferry Butte accesses.

Springfield Reservoir

1. Met with county officials regarding proposed plan to develop the area with emphasis on handicap facilities.

Twin Bridges

1. Conferred with City of Blackfoot Green Belt Committee regarding improvement of ramp and parking areas.

Firth

1. Provided money for construction of boat ramp. Six docks were provided.

Pingree

1. Met with local landowner regarding access problems.

Caribou County

1. Toured areas with County Commissioner for inspection and planning. Old toilets were removed. Rental toilets were provided. Worn out docks were removed and replaced.

Franklin County

1. Met with County officials concerning proposed development plan for Glendale Reservoir.

Oneida County

1. Met with county regarding signing problems, old toilet removal, etc. Also dock placement problems at Devil Creek Reservoir.

Power County

1. Several meetings with county officials and Stewart Engineering regarding completion of the Idaho Power plant site at American Falls.
